What fees will I pay? What additional costs should I expect in connection with my account?

| <p>Transaction-based fees. You will pay us a fee every time you buy or sell an investment. This fee, commonly referred to as a commission, is based on the specific transaction and not the value of your account. With stocks or exchange-traded funds, this fee is usually a separate commission.</p> <p>With other investments, such as bonds, this fee might be part of the price you pay for the investment called a <i>markup</i> or <i>markdown</i>. With mutual funds, this fee typically called a <i>load</i>, which reduces the value of your investment.</p> <p>Some investments such as mutual funds and variable annuities impose additional fees that will reduce the value of your investment over time. Also, with certain investments such as variable annuities, you may have to pay fees such as <i>surrender charges</i> to sell the investment.</p> <p>Our fees vary and are negotiable. The amount you pay will depend, for example, on how much you buy or sell, what type of investment you buy or sell, and what kind of account you have with us.</p> <p>From a cost perspective, you may prefer a transaction-based fee if you do not trade often or if you plan to buy and hold investments for longer periods.</p> <p>We may also charge you additional fees, such as custodian fees, account maintenance fees, and account inactivity fees.</p> <p>Please refer to our Regulation Best Interest Disclosure.</p> | <p>Asset-based fees are paid monthly in advance.</p> <p>We use the last business day of the previous month for calculating the market value of the AUM which your advisory fee is based upon.</p> <p>Account management fees are normally negotiated as a percentage of assets under management (AUM), as explained in the Investment Management or Advisory Agreement between you and Tigress.</p> <p>Asset-based fees can be withdrawn directly from your account with your written authorization monthly, or you may be invoiced and billed on a monthly basis. You may select the method in which you are billed.</p> <p>An asset-based fee may cost more than a transaction-based fee, but you may prefer an asset-based fee if you want continuing advice or want someone to make investment decisions for you.</p> <p>Paying for a wrap fee program could cost more than separately paying for advice and per transaction if there are infrequent trades in your account</p> <p>You may prefer a wrap fee program if you prefer the certainty of a monthly fee regardless of the number of transactions you have.</p> <p><i>For additional information</i> please see our Form ADV, Part 2A brochure at https://adviserinfo.sec.gov/.</p> |
